

World Explorers

Third grade students are exploring the world in Social Studies. They are learning how communities around the world are similar and different by participating in a project titled “World Explorers”. In this six week project, students have been matched with 1- 4 pen pals. Pen pals are located in Sweden, Vietnam, New Zealand, and southern USA. Each week, students are posed a question to research. Topics include Daily Life, Food, History, Art and Literature, and Pop Culture. Students are excited about their pen pals and are learning how similar people are around the world.

(The map shows the countries where our pen pals are located.)
